Capabilities Statement

CAPABILITIES & BACKGROUND

QuiaCle Technology Solutions, Inc., established in 2014 and headquartered in Frederick, Maryland is a full-service **MBE/WBE/DBE, WOSB and EDWOSB** technology company. QuiaCle specializes in developing information systems and information security support for Federal, State and local governments and commercial clients. We provide technical and program management expertise in the areas of Information Technology (IT), Network Design and Configuration, Network Monitoring and Management, Information Security and Privacy, as well as, System Development Lifecycle Management (SDLC) for Information Management Systems.

Our teams consist of experts in their respective areas and are cross-trained to enable QuiaCle staff to rapidly surge and continue operations during times of crisis. At the core of our organizational structure is delivering the right skills, at the best value, and at the right time to support our customers' mission.

QuiaCle also works with experienced in-country partners who provide local expertise, support. We provide Monitoring & Evaluation (M&E) Technical Approach and Software Application tool for development work in sub Saharan Africa, Southeast Asia, and Latin America and logistics to enable quality on-the-ground operational outreach and contextualized capacity.

PAST PERFORMANCE

QuiaCle has worked as an institutional subcontractor for Millennium Challenge Corporation (MCC) for 3 years and has successfully developed Infrastructure and Management Information Systems (MIS) for MCC and Millennium Challenge Accounts (MCAs). This includes the new MCA MIS Prototype system, the MCA-Indonesia IT Infrastructure, and the MCA MIS for MCA-Malawi, MCA-Zambia, MCA- Indonesia, MCA-Ghana, and MCA-El Salvador, etc. Some of our outstanding projects for which we have served as sub-contractor are highlighted below:

- Millennium Challenge Corporation: Millennium Challenge Account (MCA) Management of Information System (MIS) for the Millennium Challenge Corporation (MCC), Department of Compact Operations (DCO) | \$ 1.21 million
- Millennium Challenge Corporation: Millennium Challenge Account (MCA) Management of Information System (MIS) for the Millennium Challenge Corporation (MCC), Threshold Program I over \$200,000
- "Djountouwaye" Project: Development Project co-financed by the Government of Spain and Senegalese private investment | \$400,000

- Infrastructure & Data Center Services
- Service Desk Support
- Cloud Migration & Virtualization
- Agile Development & DevOps
- Information Assurance
- ERP Solutions (SAP, etc.)
- Continuous Training
