CORE COMPETENCIES

OUR COMPETITIVE EDGE

Early Risk Analysis and Customer Communication and Developer Interaction:

Timely Delivery, Right System Built, IT Service
Agility, Service Level Compliance, Optimize Use
and Quality Results

Deliver Secure Systems:

Develop security strategies, re-
engineering of internal processes, create tailored
business processes mapped to your environment

Quality Solutions and Services

Successfully Transform Your Business:

We meet client needs and conform your business
to all federal and industry regulatory guidelines
and standards

Create Practical and Agile IT Solutions:

Offer experience solving “big data”
requirements, conduct business intelligence
reporting, and direct the implementation
and deployment of “on-time” services

CLOUD PLATFORMS SOLUTIONS

- ❑ Virtual Private Servers (VPS) with Linux OS or Windows OS -- A virtual private server (VPS) operates in a secure, virtual environment and share resources with other VPSs residing on the same physical server. A VPS provides all the benefits of a traditional dedicated server at a much lower cost. It bridges the gap between virtual hosting and dedicated servers.
- ❑ Dedicated Server Platform -- We offer physical server solutions that are customized to your organization's requirements. Utilizing proven server technologies from leading server manufacturers we support a broad range of operating systems and applications.
- ❑ Small and Medium Business Flexible Cloud -- We offer flexible co--location options to empower small and medium-sized companies to secure their IT infrastructures in a highly reliable environment

DATA CENTER

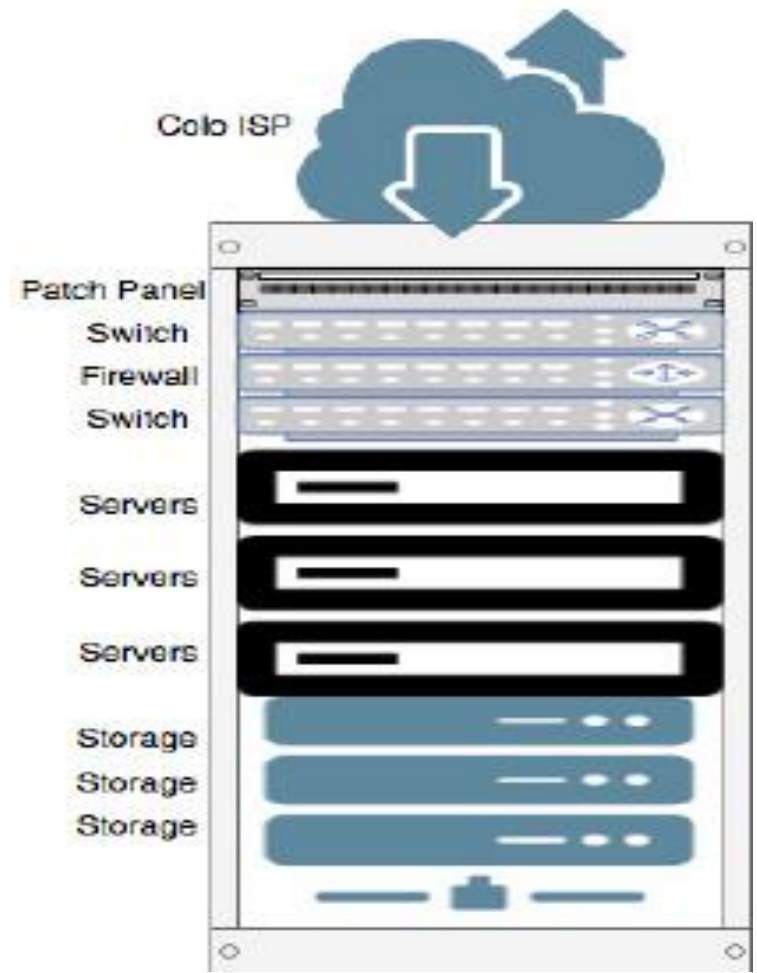

DATA CENTER FACILITY IS HOUSED IN A STATE OF THE ART FACILITY WITH SOME OF THE BEST FEATURES TO ENSURE UP TIME AND RELIABILITY

- 99.99% SLA
- Remote hands services
- Bio--metric security
- Secure video surveillance
- Energy--efficient humidification systems
- Hot--aisle and cold--aisle configurations
- Redundant Power Availability
- Direct peering with multiple ISPs
- IPv4/v6 IP Address subnet
- Redundant Fiber Paths
- 24x7 access to facility
- SSAE 16 Type II Audited
